

Brain and Memory Study is Looking for You!

Have you ever seen a **MRI image** of your brain?

Would you like to test your **short-term memory** while undergoing an **EEG** recording?

Requirements:

- 18-40 years old.
- In good general health, with no history of neurological or psychiatric illness.

Involvement:

- 3-hour in-person visit and a 30-minute online interview.
- Behavioral surveys.
- Working memory tasks with EEG and MRI recording.

Compensation:

If you are eligible and complete both sessions, you will receive \$70 plus parking fees.
