

Understanding and Supporting Motor Function Challenges in Autistic Individuals

Rujuta Wilson, MD, MS

Dr. Dr. Rujuta B. Wilson is a pediatric neurologist specializing in autism spectrum disorders and related neurodevelopmental disorders. She is an Assistant Professor in Psychiatry at the UCLA David Geffen School of Medicine and the UCLA Center for Autism Research and Treatment (CART). Dr. Wilson's research is focused on developing quantitative methods of motor phenotyping to improve characterization of atypical motor development in individuals with a range of behavioral and intellectual function.

Thursday, November 13th, 2025

Time: 9:00 AM - 11:00 AM

Location: Zoom Webinar

Register here!

Learning Objectives

1. Learn and understand that motor impairments/differences are common in autistic individuals.
2. Learn how motor impairments can impact communication and physical health
3. Learn the benefits of organized physical activities for children with developmental disabilities
